PRODUCT INFORMATION

Features

Nila without feet, chassis and waste. Capacity 159 l.

Useful information

Gala baths may be purchased with or without skirting panel. The location of the hydromassage system facilitates the installation of the enclosure. The chassis is free-standing, enabling its installation with the least possible disruption. The disinfectant for hydromassage baths with automatic disinfection is available at Gala.

Guarantee

Gala products are guaranteed against any manufacturing defects, from the date of purchase of the product, only if the installation has been carried out in accordance with Gala's installation instructions and, applying the current legislation on electrical and sanitary appliances, by authorised staff. The guarantee period for acrylic products is of 2 years.

Please check our product installation manuals.

Maintenance

Cleaning should be carried out using a soft sponge, soap and water. After cleaning, it should be dried so as to prevent limescale forming. No abrasive products, solvents or objects that could damage the surface should be used. Should any scratching occur accidentally, it should be enough just to go over the surface with a solvent-free polish. If necessary, the scratch can first be wet-sanded with 800 G wet-and-dry sandpaper, then wet-sanded with 1200 G paper, before finally applying the polish.
